

Abdulrahman Alenezi

Medina, Saudi Arabia

abdulrahman.alenezi.0x@gmail.com — LinkedIn — GitHub — Portfolio

Professional Summary

Computer Networks passionate about networking, Linux systems, and software development. Currently learning CCNA and RHCSA while building practical skills in network infrastructure, troubleshooting, and system administration.

Experienced with C# & Python development, web technologies, and UI/UX design using Figma and Framer. Interested in Networking, Linux Administration, Infrastructure, Automation, and Technology Development.

Education

Diploma in Computer Networks

Jun 2024 - 2026

Technical and Vocational Training Corporation (TVTC) at Medina

- GPA: **4.95 / 5.00**
- Skills: Routing & Switching, Windows Server & Linux Administration, Network Security, Team Collaboration
- Tools: Cisco Packet Tracer, Wireshark, Nmap, Virtualization (VMware / KVM / Hyper-V)

Technical Skills

- **Networking:** Routing & Switching, TCP/IP, Subnetting, Network Troubleshooting, Network Security
- **Systems:** Installation and Configuration, User and Group Management, Virtualization, Bash Scripting
- **Development:** Problem Solving, Web Design(HTML, CSS, JS), Python, C#, Git & GitHub
- **Design:** Responsive Design, Figma, Framer, UI/UX Design

Certifications & Training

- Doroob Microsoft Office Certificates (Word, Excel, PowerPoint, Outlook) 2024
- Python Coursera +40 Hour training Certificate Nov 2025
- AI KAUST Academy 40 Hour training Certificate Jan 2026
- Cisco Networking Academy Courses of (CCNA) 2024 - 2026
- Cisco Ethical Hacker Academy Course Jun 2026
- RedHat Linux Courses (RHCSA) 2025 - 2026

Projects

TVTC College Computer Networks Graduation [link](#)

May 2026 - Jun 2026

- Designed and simulated an advanced network infrastructure using Cisco Packet Tracer.
- Implemented VLANs, OSPF, HSRP, DHCP, STP, AAA, IPsec VPN, VoIP, Dial Peer, SSH, and Port Security to build a secure and highly available network.
- Enhanced network performance, secured data, and ensured reliable and continuous connectivity between sites.

UI/UX and Web Projects [link](#)

- Designed responsive interfaces using Figma and Framer.
- Built modern web pages and layouts in my Portfolio & Github.

Languages

- **Arabic** (Native), **English** (Intermediate)
